

VALOR/MILES INDUSTRIES

The L1 Linear Series fireplace is a radiant and convective heater with low turn downs for hours of comfort, distributing warmth where desired. Engineered to enhance flame depth and width without sacrificing efficiency, the burner projects radiant heat. The HeatShift System option is good for cooler walls above the fireplace. Call (800) 468-2567 or visit www.valorfireplaces.com.

STOLL INDUSTRIES

The aluminum outdoor wall cladding system adds an extra dimension to a new home or for resurfacing an existing wall. The customizable wall panels fit in any setting and use 1/8-in. hot rolled steel or 304-grade stainless steel. Call (800) 421-0771 or visit www.stollindustries.com.

STONE AGE MANUFACTURING

The New Age fireplace now comes with an arched lintel, in firebox sizes from 39- to 51-in. The fireplace features a block-friendly profile with easy installation of outdoor TVs, mantels and other accessories and brings style to any outdoor setting. Call (877) 371-8861, or visit www.stoneagemanufacturing.com.

EUROPEAN HOME

The Ergofocus suspended fireplace pivots 360 degrees and can be viewed and enjoyed from all sides. Its streamlined shape maximizes heat efficiency and is a blend of function and form. Call (781) 324-8383 or visit www.europeanhome.com.

TOWN & COUNTRY LUXURY FIREPLACES

Built to face the elements, the WS54 Outdoor Gas Fireplace has durable 304 stainless-steel reinforcing, all-exposed components, while the disappearing ceramic glass ensures the panorama of flames are always protected from the wind. The fireplace is direct-vent with wall switch control, and it can be customized with a choice of firebox panels and burners. Call (888) 223-0088 or visit www.townandcountryfireplaces.com.
