

ELECTRIC FIREPLACES

DEDICATED TO ELEVATING THE ELECTRIC FIRE EXPERIENCE

Flamerite Fires, award winning designer and manufacturer, of the patented glowing log technology, has created an electric fireplace which ensures a level of realism that surpasses other brands. With a fusion of innovation and contemporary design, Flamerite is able to transform a living space, creating an ambiance of a wood or gas fire. These fireplaces are constructed with premium material and expert workmanship for long lasting performance.

FIREPLACE FEATURES

- Ultra-High-Definition (UHD) non-reflective front.
- Ultra Black 3-dimensional realism.
- Pre-set and user favorite programmable animations.
- Customizable colors.
- Variable flame speed.
- Variable lighting control.
- Fully animated and illuminated LED log effects.
- Remote and App controlled.
- Manual keypad.
- Works with Google Home and Amazon Alexa.
- Hidden heater for optional heat.

UNIQUE & REALISTIC LOGS

Experience the charm of authentic looking illuminated log effects with a simulated burn. To enhance the overall visual appeal, Flamerite has integrated the illusion of a smoldering ember bed and added adjustable lighting. This allows you to accentuate this effect based on the ambient light in the room.

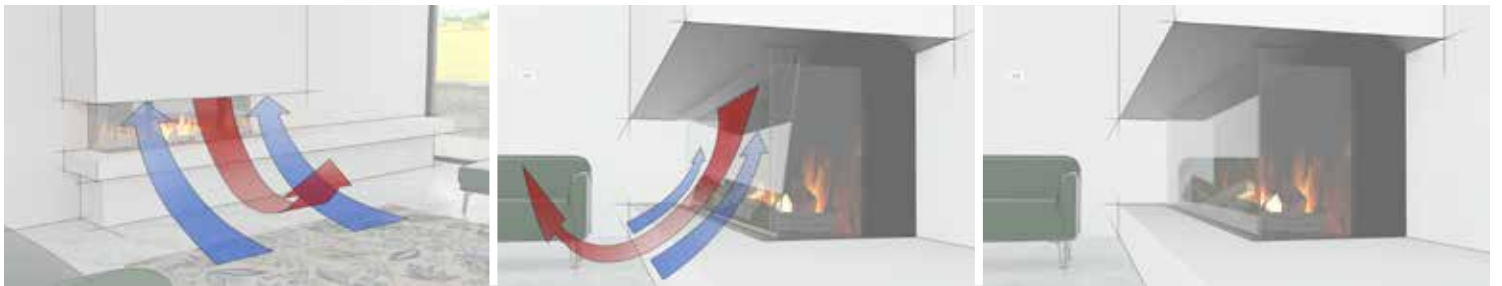

A CLASS-LEADING FLAME EFFECT WITH LESS GLARE

With variable flame speeds and an array of flame animations, their fires offer both pre-set options and the ability to intuitively customize your flame effect. Achieve a wholly non-reflective ultra-black aesthetic with Flamerite. Addressing concerns from electric fireplace users who have experienced mirror-like reflections, Flamerite has addressed this, ensuring that Flamerite fireplaces do not exhibit such characteristics.

OPTIONAL HEAT

The rising popularity of electric fireplaces can be attributed to the ability of users to enjoy the visual appeal of a fire without producing actual heat. Unlike traditional fireplaces, electric fireplaces operate on a “flame effect” principle rather than real flames.

- The heaters are discreetly concealed, eliminating distracting grills from view.
- A subtle adjustment in the front glass tilt technology enhances air circulation, efficiently drawing in cooler room air while emitting warmth. This improvement contributes to the heater’s increased reliability and lifespan.
- The hidden heater design provides a flush finish to the fireplace’s face, enhancing the overall aesthetic.

YOU'RE IN CONTROL

For those who appreciate the traditional touch, Flamerite offers wireless remote and a discreet but incredibly easy to use manual keypad on the fireplace. These features take the frustration out of fireplace operation. For those who enjoy newer technology, the fireplaces can be brought to life with your smart phone or tablet. Plus, they can connect to Google Home, and Alexa.

Cloud eControl App

AVASMART CONTROLS

Powered by Amazon Web Services (AWS) manage your fire home or away. Schedule an event, pre-warm the room or just set the ambiance prior to arrival, you're in total control.

E-FX 1800

SINGLE-SIDED

E-FX SERIES This premiere line of electric fireplaces has all the hallmarks of excellence that Flamerite has worked to achieve. From pre-set animations to customizable colors and variable lighting and flame speed. Fully animated and illuminated log effects, ultra black 3-dimensional realism, and hidden heater for optional heat. Fully remote and App controlled that work with Google Home and Amazon Alexa as well as a manual keypad for the those who are more hands-on.

This series is available in four sizes to fit an assortment of design needs. From the impressive E-FX 1800 which can add a notable accent to any space to the petite E-FX 1000 which can enhance a room with comfort and ambiance without overwhelming it. With a depth of 11 ¼" these models replicate the substantial feel and look of a gas flames.

E-FX SLIM LINE 600

CAPELLA SUITE

SUITES Purchasing a fireplace with a surround is a fast and easy way to do an installation without all the hassle of construction. Simply set the fireplace against a wall or hang it up and you have added an instant design statement to your space.

Capella & Europa Suites are available in Single-Sided only.

Choose from the classic look of a front flanked by Doric columns in the Europa or the smaller stylish look of the Capella. You can have a cleaner, more modern look with the Milan or the Elara's wall-mounted as an architectural accent. Additionally with the Elara you can simply set it on the floor using the metal legs for a minimalistic look or the matching base for more of a show piece.
